#### AN EMERGENCY POULTICE.

Our grandmothers were adepts in the preparation of poultices and the home treatment of many ailments. In these days with the doctor within easy distance, most of this knowledge of "homemade" medicine has been lost.

There are emergencies, however, when something must be done quickly, and for any injury or condition requiring an antiseptic dressing or poultice nothing is more effective and sim-

ple to make than the following.

Dissolve one-half ounce of Powdered Boric (20 Mule Team Boric is best because it is strongest and dissolves quicker) in a pint of hot water. Wring out several pieces of cheese-cloth or linen in this hot solution and apply to injured surface. The Boric is very healing and soothing; and most important of all, antiseptic.

## OVER SUBSCRIBE QUOTA 1st DAY

Volunteer System is Winner  
People Make Splendid Patriotic Response to Liberty Loan.

WAS SECOND COUNTY IN STATE TO REPORT QUOTA FILLED.

The Fourth liberty loan campaign in Crawford county was almost "too quick to mention." Arrangements had been made in each township so that the people residing in those places might find it convenient to purchase their Liberty bonds on the first day of the campaign, Saturday, September 28—Volunteer day. The subscription booths and places were open for business at 7:00 o'clock a. m. In Grayling the hour was heralded by the blowing of factory and locomotive whistles, and apparently every whistle was on the job.

A. M. Lewis was the first clerk on the works Saturday morning and opened Main street booth at 7 a. m. and concluded that he would personally purchase the first bond, but before he could get started Miss Mary Cassidy, a clerk at the postoffice, was at the window with her money for a bond.

There was soon a long line of applicants at the windows and an emergency call had to be sent out for more clerks. The buying was brisk and at times the clerks were nearly swamped. Those assisting in the local booth were A. M. Lewis, L. J. Kraus, Dr. C. A. Canfield, Harry Simpson, Holger Peterson, O. P. Schumann, Prof. M. Otterbein, A. E. Mason and E. W. Behlke.

The largest single subscription that was taken in Grayling was for \$12,750.00. There were two subscriptions for \$5,000 each, three for \$2,000 each, and several for \$1,000 each.

The quota for Crawford county was \$47,000 and at two o'clock p. m. the committee announced that our quota had been more than subscribed. During the day \$64,000 in subscriptions were taken in at the local booth, and a large proportion of these were paid for in cash or with check.

The total amount subscribed in the county the first day was \$69,900. And the amount subscribed up until Tuesday night was \$72,800.

We will endeavor to print the name of each subscriber in our next week's issue.

"Hearts of The World," D. W. Griffith's Latest Masterpiece.

The biggest event in the entire season in the world of motion pictures, will be the presentation of D. W. Griffith's latest film masterpiece, "Hearts of The World," which comes to the Opera house Oct. 17 and 18.

"Hearts of The World" required eighteen months in making and many of the scenes were taken on the actual battlefields of France by Mr. Griffith, with the official aid and assistance of the British and French governments. Mr. Griffith, however, is anxious to remove any apprehension that "Hearts of The World" is primarily a war picture. It is, he announces, primarily a love story, in which war figures as the grim background. It may be called "the story of a village," and for more than forty minutes during the exposition of the story, there is not a cannon shot, nor a suggestion of war's alarms.

There is the pretty romance of two girls each in love with the same man. There is the quiet and peaceful atmosphere of a small French town before the outbreak of the war. Then comes the conflict, with its ensuing havoc upon the fortunes of those in the village. The battle scenes shown are actual battle scenes taken right in the trenches during the death struggles of the French and Germans. Occasionally has it been found necessary to piece the story of the battle together by means of acted scenes. Thus one sees the life in the trenches; the charges of the French soldiers; the thrilling hand to hand conflicts and the thrust of bayonets; the murder of the shells; the great guns in action; the tanks; the attacks by liquid fires; the charges and the retreats; the German pill-boxes; the flight of the villagers; the ruthless destruction of property; the treatment of young girls who fall into the hands of the Germans; and other things too numerous to mention, the whole culminating in the arrival of the American troops of ultimate victory and a hint of future happiness for those who have endured this terrible struggle.

Mr. Griffith is anxious to have it understood that while "Hearts of The World" deals with war and love, it is a drama he has staged, rather than a propaganda film. Yet no one can sit through his wonderful pictorial representation of the tragedy of Bleeding France without going forth more determined than ever that this conflict MUST be won, that the Allies MUST triumph over their adversaries, and that such grim horrors of war must never happen again in the history of the world.

Prominent in the cast of "Hearts of The World" are the beautiful Gish sisters, Lillian and Dorothy, Robert Harron, George Fawcett, George Seigman and other well-known players.

ABOUT 50 ATTEND BOARD OF TRADE BANQUET.

Plans Completed for Liberty Loan Drive.

Altho a Board of Trade is an organization that's alive twelve months in the year, there's times when concerted activity is not as great as at other times. This is the case here in Grayling and since the 3rd Liberty Loan campaign the regular meetings of the Board have been omitted.

The Fourth Liberty Loan campaign which is handled in Grayling by the Board of Trade, demanded attention and for that reason a luncheon was arranged for at Shoppenagon's Inn for last week Friday night. About

who was a guest at meeting telling of many good things that gentleman had done for Crawford county and Grayling. Only recently thru the individual efforts of Mr. Barnes he had been able to persuade the Michigan Central railroad company to file a certain mortgage tax in Crawford county, the fees for which amounted to \$24,000, one half of which amount went into the county treasury and a half to the State treasury. In speaking of the work Crawford county was doing he said that we had a record that was recognized all over the State and the State War board acknowledges the big showing we are making. He said we must work on until our flag floats over Pottsdam palace. He told of the splendid work the women of the county were doing in the war and said that if the men did nothing, the women would carry on the work with success without our aid. He gave special credit to Mrs. S. N. Insley for her work on the woman's committee and said that her work was recognized all over the state.

Wm. S. Chalker was introduced by the chairman as "Peppery" Chalker, and when he got up to speak, every

fifty members and a few friends responded to the occasion by being present.

Everybody goes to these functions prepared to eat and there is always a plenty and the food is always delicious, and the "eat" feature is always enjoyed, but the best part of these meetings are the associations of citizens, one with another; and the inspiring talks that are sure to form a part of the program, and the discussion of social, industrial and civic matters.

This meeting was no exception to the others that were held during the past year. After the members and guests had finished their dinner and were comfortably enjoying a comfortable smoke of J. W. Letzkus' LaPuntas, President Harry Simpson fired a few shots that were ultimately meant for the Huns. He explained the plans for "Voluntary" subscription day for the Liberty loan and requested every member considering himself a committee of one and aid in the work of getting the people out to the booths.

While it was public form the president called on several for remarks, the first to respond was James A. Kalahar of Frederic. The latter was confident that we would fill our quota the first day. He said Frederic would have a Voluntary subscription booth and throughout Frederic and Maple Forest townships arrangements were made for receiving subscriptions in the several school houses thruout that district. He offered an opinion, and one that seems to be quite general to those who have studied conditions that our hardest and greatest work must come after the war is over.

Olando F. Barnes gave a very interesting talk on the future that is to follow the war, and asked the question "what will be the future of this country when our boys return." He believed that America would come out of this struggle the biggest nation; not one that will be looked upon with fear and trembling, but instead one that would be loved.

Benjamin Jerome of Pontiac, a young man who had spent his boyhood days here, was introduced. He said "he was glad to be with us." Mr. Jerome occupies a responsible position with the Oakland Auto company of Pontiac.

Holger F. Peterson, the newly appointed secretary of the Grayling Board of trade, expressed himself as being pleased at being honored with the appointment of secretary, and would try and deliver the goods.

John H. Harris of Bay City told of the Liberty loan committees in Bay City.

T. W. Hanson, chairman of the war activities in Crawford county, expressed his appreciation of the county in the various duties pertaining to the war. He also boosted O. F. Barnes

# Dollars that Fight

By SENATOR HENRY CABOT LODGE

The war will be won by men and ships, by guns and airplanes. To raise armies and supply them, to build the navy and support it, and to furnish ships and transport, we must have money in large amounts. The expenditures of the Government for the ensuing year are estimated at \$24,000,000,000, a sum which baffles the imagination to conceive. That vast amount

must come one-third from taxes and two-thirds from loans. The success of the Fourth Loan, like those that preceded it is, therefore, absolutely necessary. We must work with the highest speed, as if the war was to end in six months. We must prepare in every direction, as if it was to last for years. Speed and preparation are both expensive.

## Without the Loans We Cannot Have Either

We are fighting to secure a just, righteous and lasting peace. For a complete peace we must have a complete victory. It must not be a peace of bargain or negotiation. No peace which satisfies Germany can ever satisfy us. No peace that leaves Germany in a position to renew the war against us will be worth having. It will be far from sufficient to gain all our objects on the Western front—Belgium, Alsace-Lorraine, Italia Irredenta. The President with wisdom and foresight and great force expressed his determination to redeem Russia. Russia

must not be left in Germany's hands. That would mean another war. Poland must be free. Slav republics must be established to bar the way between Germany and the East. Serbia and Roumania must be redeemed. All these things are essential. *Nothing will bring them but complete victory and a peace dictated by us and our allies.* It is a conflict of ideas. It is the principle of evil arrayed against the principle of good. It is the battle of freedom and civilization against barbarism and tyranny. *We must win and we shall win.*

**We Cannot Win Without Money, and, Therefore, These Loans Are Vital, and the Country Should Rally in All Its Strength and Subscribe and Oversubscribe the Fourth Loan**

WHOLE STATE TO  
RAISE FUNDS ON  
WAR CHEST PLAN

MICHIGAN PATRIOTIC FUND  
CREATED BY GOV. SLEEPER  
TO STAGE UNION DRIVE  
IN NOVEMBER.

## 7 AGENCIES REPRESENTED

Action in Accordance With Request  
of President Wilson; Organiza-  
tion is Perfected.

The Michigan Patriotic Fund, recently created by Governor Sleeper to combine all appeals for funds by war relief agencies in one yearly drive, embracing the whole state, will make its first campaign the week of November 11. The amount to be raised is approximately \$10,000,000.

A number of counties are already raising funds through their own county war chest organizations and have their quotas in hand for this year. For that reason their participation in the first campaign will be passive and they will be credited with their respective quotas just as though they were taking an active part in the drive.

Different Agencies Essentially One  
Establishment of the Michigan Patriotic Fund is in accord with the request of President Wilson, as voiced in a letter to Raymond D. Fosdick, Commissioner on Training Camp Activities. In this letter the president pointed out that the services rendered by the different agencies to our army and to our allies are essentially one and must of necessity be rendered in the closest co-operation. He asked that appeals for funds be united in order that the spirit of the country may be expressed without distinction of race or religious opinion.

Seven large national organizations engaged in war work will be represented in this drive. They are the Y. M. C. A. War Fund, the Knights of Columbus, the Jewish War Fund, the War Camp Community Service, the Y. W. C. A. War Fund, the Salvation Army and the American Library Association. Each of these organizations had planned a campaign for funds for some period within the next six months. This would have meant a series of "drives" following one another in quick succession and even overlapping. By joining forces in a single campaign, conducted by the Michigan Patriotic Fund, they will save time and annoyance both for the public and the solicitors and promote a better feeling all around.

Giving on Efficient Business Basis  
In other words, the object of the Michigan Patriotic Fund is to place Michigan's war time giving on an efficient business basis, and at the same time distribute the burden equitably among all the people. The people of Michigan have shown in the past that they are no shirkers when it comes to backing up the men who have gone to the front from within its borders. The Patriotic Fund will greatly simplify the task of collecting this money and save many precious hours for the real work of winning the war.

Organization of the fund was perfected at a recent meeting held in Detroit. Campaign headquarters have been established at 115-117 West Fort street, Detroit, and the work of organizing the counties is already begun under the direction of the executive committee. The war board in each county will be asked to head up the respective county organizations, and counties already operating on a war-chest basis will be asked to cooperate to the fullest extent.

Plan Copied After Detroit's Big Drive  
The Michigan Patriotic Fund is an elaboration of the Detroit plan, which proved so popular that, with a goal of \$7,000,000, Detroit and Wayne county raised \$18,500,000 in a seven-day campaign last May. Executives of the state organization are confident that the people of Michigan will welcome the war chest idea, which affords them an opportunity to give once a year for all patriotic purposes and practically insures them against further solicitation in the meantime.

The Liberty loan campaigns, of course, are entirely separate, the purchase of a bond being in no sense a gift but a sound business investment. Officers of the Michigan Patriotic Fund are: Carroll F. Sweet, Grand Rapids, general chairman; David A. Brown, Detroit, general vice-chairman; Mark T. McKee, Detroit, general secretary, and State Treasurer Samuel O'Dell, treasurer. The executive committee is composed of the officers and the following: E. J. Bullard, Detroit, chairman of the state quota committee; H. H. Dow, Midland; Col. A. E. Kimball, Detroit; W. J. Norton, Detroit; Ernest A. O'Brien, Detroit; Helen Penrose, Detroit; Adam Strohm, Detroit. Each of the organizations participating in the drive is represented on the committee. Mr. Brown will be in general charge of the publicity and of the campaign.

## A LIBERTY WHEAT ACREAGE

By

L. J. Taber—Master, Ohio State Grange.

The tide of battle on the Western front has definitely turned in favor of the Allies. Certain and sure victory can be seen in the distance. The tiller of the soil must not be deceived and led to feel for one moment that he can relax his hard toil or lessen his efforts to feed a hungry world. The pathway ahead may be long and difficult. The need for food supplies will constantly increase. Marshall Foch, the world's leader, has demonstrated that reserves bring victory. The Ohio farmer must help build up America's wheat reserve.

The world cry for four long years has been wheat. The world cry for years to come will be wheat. Other food supplies can be abundantly secured. The supply of wheat is limited and will continue to be so while conditions remain as at present.

In spite of labor shortage the Ohio farmer planted and harvested 100,000 more acres of wheat than he did the previous year. Labor shortage will continue but it must not prevent our farmers from determining now to sow a liberty acreage this fall and reap a victory harvest next summer.

The Federal Agricultural Department has asked for 7 per cent increase as the minimum wheat acreage in the United States to be sown this fall. In other words it is figured that 45,000,000 acres is the least amount sown in wheat that will guarantee a safe harvest for the coming summer.

Every Grange in Ohio would at once get into the campaign to stimulate wheat acreage. Ohio farmers increased their acreage nearly 10 per cent last year. Plan for another 10 per cent increase in 1918.

Here is a very patriotic and practical field for labor. Scores of Ohio Granges have already guaranteed that there will be a Liberty acreage sown in their township. Bring this message vividly before every farmer in Ohio. Increased wheat acreage hastens victory.

The Ohio State Grange conducted a campaign last spring to increase the sugar beet production. We have just been advised from Washington that Ohio had 40 per cent increase as compared with last year. The world shortage of sugar brings home with compelling force the truth that this was a patriotic and worth while attainment.

Let each of our eight hundred granges become a center from which radiates wheat enthusiasm. Let every one of our seventy-five thousand members become a "Four Minute Man" preaching the gospel of the patriotism of wheat production.

U. S. MUST CARRY  
THE FOOD LOAD

Robert Hoover, Home From Europe  
Outlines the Program America  
Must Meet.

Food Administrator Pays Glowing  
Tribute to the Women of Our  
Allies For Their Magnificent  
Part.

Leaving, Sept. 5.—Following is a  
statement made by Mr. Hoover in  
New York, upon his return from his  
trip to Europe.

The harvests in France, England, and Italy are better than one could expect in the tremendous drain of manpower to the front. This is due to the women. There is no sight in the world that would so appeal to the American heart as that of the literally millions of women doing all the work of getting in the harvests while the men are at work in the shops and living back the Germans.

## The Figures Are Stupendous.

The total food that must be imported by the Allies for human consumption in the year beginning September 1st, is in round numbers as follows:  
Cereals, 10,000,000 bushels  
Pork (pork products—vegetable oils), 1,000,000,000 pounds.  
Sugar, 1,500,000 tons.  
Beef products for civilian consumption, 800,000,000 pounds.

In addition to this, beef must be imported for army needs and oats for army horses.

If this program is fulfilled there will be no need for drastic rationing of food as during last year except in beef and sugar. The world shortage in these two commodities makes it hopeless to satisfy their whole need. On the other hand this program provides an ample supply of bread and rice, without the rationing of either, and together with their own production gives sufficient supplies. The reductions on the consumption of pork products in Allied Countries have already been removed and bread will be in full supply by September 1st, and of better quality than last year, and it has been pretty bad in France the last few months.

## The Burden Falls Upon America.

After shipping is set aside for the transport of the American Army and for military purposes of all the Allies, a definite amount of tonnage is made available for the transport of the program of food for civilian consumption. The purpose of our European food conference has been to determine the amount of food upon which health and morale can be maintained, and to determine the nearest possible sources of supply of this food to the Allies; for only by the shortest voyages, such as to North America, can be above supply be provided with the tonnage available. Therefore, upon North America falls the burden of food supply and any failure means that much less food for the civil populations. While Canada can export 100,000,000 bushels of grain this year the major part of the Allied program for next year falls upon us. We have also to feed our enormous army. It is the largest call for food exports we have ever undertaken. We can do it if we simply have the will to live with every economy and to waste nothing, and it will put us to no hardship.

## Hoover Praises American Farmers.

By the great effort of our farmers our United States harvests are better this year, but in order that we may build up a surplus of wheat this year as against possible crop failures such as we had last year, we have decided to mix 20 per cent of other grains with wheat flour in all the countries fighting Germany. We cannot ask for better bread than France, and we propose the American people should maintain a common standard of bread with them. Under these arrangements, however, the bread situation in the United States will be much easier than last year, and in Allied Countries an enormous improvement. Bread to them is of the first importance as it comprises fifty per cent of their food intake. By supplying them with bread and fats in such amounts as will not necessitate rationing on their side we can rest assured that their courage and strength in the war will remain high during next winter. It will be a bad winter in Europe because coal will be much shorter there than even last winter, and the health of their populations cannot be maintained if they, in addition, are to be also restricted in their allowance of bread and fats. Our complete fulfillment of our last year's promises in food and our assurances to furnish even larger supplies this next year have removed from them the last fear of hunger.

## Can Now Eat and Sleep in Comfort.

If troubled with indigestion or sleeplessness you should read what Miss Agnes Turner, Chicago, Ill., has to say: "Overwork, irregular meals and carelessness regarding the ordinary rules of health, gradually undermined me until last fall I became a wreck of my former self. I suffered from continual headache, was unable to digest

ter bread than France, and we propose the American people should maintain a common standard of bread with them. Under these arrangements, however, the bread situation in the United States will be much easier than last year, and in Allied Countries an enormous improvement. Bread to them is of the first importance as it comprises fifty per cent of their food intake. By supplying them with bread and fats in such amounts as will not necessitate rationing on their side we can rest assured that their courage and strength in the war will remain high during next winter. It will be a bad winter in Europe because coal will be much shorter there than even last winter, and the health of their populations cannot be maintained if they, in addition, are to be also restricted in their allowance of bread and fats. Our complete fulfillment of our last year's promises in food and our assurances to furnish even larger supplies this next year have removed from them the last fear of hunger.

## Crisis Is Passed—Thanks to America.

The German drive and the apprehension of famine last Spring brought a great deal of discouragement to the civilian populations of England, France and Italy. The arrival, however, of the American Army, their instant magnificent performance in action, the gradual overcoming of the submarine with the assistance of our Navy, together with our assurances of all necessary food, have put a new heart into the Allies. Since the war began I have not seen their spirit so high or their determination to finish the job so fixed as it is today.

There is much bitter complaint abroad at the prices of our food products. It is necessary to remember that the working people and soldier's families of the Allied Countries are upon a much lower average income than our own people. The average wage is not over \$10 per week. The government allowance to the average soldier's family is considerably less than this. American bread at 50¢ per pound is very difficult to them. Their governments have found it necessary to sell our breadstuffs at a great loss in order to help the people out. On the other hand the higher wage level in the United States renders our production costs higher in any event.

## "Europe Is Deeply Grateful," Hoover.

The only real difficulty in the United States is sugar, and that is a shortage that cannot be helped. We cannot take ships from carrying our Army or Allies bread and send them to the East Indies to fetch us candy and sweet drinks, and we will simply have to divide the West Indian sugar with the Allies and put up with what we have. There is, even then, enough sugar for the essential uses for everyone, and much more than our friends in Europe have.

Since I have been away I have been thanked time and again for what the American people have done in food during the past year. The men, women and children of the Allied Countries at meetings and gatherings of all descriptions expressed heartfelt appreciation for the sacrifices we have made which have meant to them their daily bread during last year. They universally express amazement at its accomplishment on a voluntary basis. I have some many thousands of letters from children which I am asked to distribute to children in America, expressing directly their knowledge of whence and how their loaf came to them. I have replied to all these demonstrations, and I believe the American people will support the attitude, that any expressions of this kind are unnecessary; that this war in part belongs to us and that effort in food production and saving by our people is but a part of our job against a common foe.

Upon the President's authority that we eat at a common table in a common cause, I have given assurance to my food colleagues in Europe that we will provide the enlarged demands for next year.

We have to make good.

She expects to visit her sister, Mrs. Peter Hemmingson of Detroit before her departure. Mr. Nelson also has a son, Wilhelm Nelson in the service of his country.

Word has been received here of the death of Mrs. Emory O'Dell, in California. Mr. and Mrs. O'Dell were residents of Beaver Creek until about eight years ago when they moved to Tekonsha. Mrs. O'Dell was a daughter of Mrs. John Randall, the latter a sister of Perry Ostrander of Pere Cheney. About six weeks ago Mr. and Mrs. O'Dell left their home in Tekonsha on a trip to California where the latter contracted typhoid fever and passed away one day last week. The deceased's husband was a brother of the late Theodore O'Dell.

Louis M. Edwards resigned the position of foreman of the Avalanche office after a service of four years and left Sunday night for Detroit. He will work in a munition plant where "Six plunks" a day looks good to a printer. Printers are very scarce but this country cannot run a war without munitions and we would rather if necessary, quit printing than to hold up on the manufacture of war material. In the meantime Ye Editor will cease to be an office man and get busy with type and presses, and things are sure to go along all right as usual. Miss Mae Whipple is aiding in the business office and editorial sanctum. We shall miss Mr. Edwards for he has been a faithful workman. Our best wishes go with him.

(Continued from first page)

man in the room arose to his feet as a tribute of regard held for him. Mr. Chalker gave one of his inspiring and "peppery" talks, and also made a strong appeal for all to buy bonds.

C. M. Morfit, superintendent of the DuPont plant, among a few things said in his talk that America is on the threshold of dictating the world's terms and hoped its service would be such that the world would look up to America with love and not fear and dread.

Rasmus Hanson whose service in the war is quite well known to all, was the next speaker. He said that he was born on foreign soil, endowed with the spirit of freedom, and will fight with our boys by helping at home—"we must go down in our pockets and help with our money. When our boys return we will receive them with loving hands, whether they are wounded or otherwise. We are all struggling with the same point in view." Mr. Hanson suggested that local industrial firms close their mills in the afternoon of the next day, which was to be Liberty Loan Volunteer day, thus to enable the workers to purchase bonds the first day of the campaign.

Melvin A. Bates, secretary of the county draft board, said that 150 men had gone from Crawford county, and that the Board is now preparing for 604 more. Crawford county has men in 77 army camps throughout the country. Also he named many of the products our state was contributing to the war needs. He closed his talk by repeating the lines of the beautiful poem "Your Flag and My Flag."

Prof. Otterbein added a few valuable words and said a few nice things about the faithful work Mr. Bates is doing, which were fully merited by the latter. In speaking of his work he said that he would rather be his superintendent of schools than to be Senator. He told of the large percentage of requests from parents for their children to be allowed to leave school and work. He deplored the idea and that it is unwise for any parent to wish to take his child out of school at least before he had passed the 8th grade. The beautiful lessons of the history of the United States should be learned before any child should be allowed to leave school. He said that people must know our country in order to love it.

The matter of labor conditions came up for discussion and it was pointed out that in many places some of the workers, who receive the best of wages, take advantage of their employees by only working four or five days in the week, and that at a time when labor is so greatly needed as it is now, every man should give his employer full time. This should be done from patriotic reasons if from no others. Every man should be at his work every day. There is a scarcity of labor here in Grayling and if it becomes worse, it is said, at least, one of our mills have to cease operations. The employee sells his labor for as large a price as he is able to sell it for, and the manufacturer re-sells the employees' labor at as large a price as he is able to get for it. If the employee neglects his duty and fails to be at work regularly the employer's capacity is reduced, the over-head expense is just as great and the losses occurring must be made up by someone, and usually it is placed upon the consumer. Hundreds of workers fully realize the duty that is before them during these trying days and may be found giving every bit of energy to their work that they are able to give, and often doing more real labor than they have ever done in many years before, and the distinction between such men and women and those who only do what their physical necessities compel them to do is quite generally termed patriots and slackers. If honest production cannot be had, the results must fall back on the laboring classes.

Before the meeting closed Mayor T. Hanson expressed the desire that he wanted everyone in the city to join the Board of Trade. This organization is not meant for the business men and employers only but for everyone who cares to join it. It is meant for laboring men just as much as for the business men, and the laboring classes should be represented on the board. The meeting as a whole was full of interest and also gave those in attendance an opportunity to come in contact with the progressive element in our community. It was decided to hold a luncheon once each month, each month.

### KNOW IT WELL.

Familiar Features Well Known to Hundreds of Grayling Citizens.

A familiar burden in many homes. The burden of a "bad back." A lame, a weak or an aching back. Often tells you of kidney ills. Doan's kidney Pills are for weak kidneys.

Here is Grayling testimony. Phillip Moran, brakeman, Chestnut St., says: "I have used Doan's Kidney Pills off and on with excellent results. Often my back has ached and been weak and lame. The kidney secretion have been too frequent in passage, too. I have used Doan's Kidney Pills at these times, getting them at Olsons Drug Store, and they have never failed to cure the attack."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Moran had, Foster-Milburn Co., Mfg., Buffalo, N. Y.

**Bronchial Trouble.** Mr. A. E. Sidenberder, Rockford, Ind., states: "For an attack of bronchial trouble which usually assails me in the spring I find Chamberlain's Cough Remedy the only thing that gives me relief. After using it for a few days all signs of bronchial trouble disappears."

## CRAWFORD AVALANCHE.

## COUNTY AGENTS' COLUMN.

County agents who have been conducting a silo campaign are somewhat put out by the silo being included in the non-building rules sent out by the War Industries board. However that board soon discovered the conflict and took silos out of the prohibited class. Farmers can build silos if they desire, and they should build them for their own pocket book's sake.

This would be a fine time to go thru the potato field and pick out the most likely looking hills and select a few bushels of potatoes from the very choice hills. These planted next spring by themselves would probably pay very large returns by another year in the betterment of the potato seed on that farm.

Th County Agent was excused by Community Chairman Funch from attending the county meeting at El-dorado Saturday night in order that he could fill an engagement to speak on the Liberty loan at Michelson. As Mr. Funch put it "we can pursue better farming any time, but we don't get a chance to buy bonds every day."

Th New York Central pure bred Holstein bull that stood at Alex Walker's near Roscommon this summer, is being transferred to the Rily farm at Houghton lake, under care of Wm. J. Lytle. This enterprising farm has 23 well-graded Holsteins upon which to use this animal, besides a well-settled community, and it is expected that the results will be gratifying.

There are probably people in these counties who think the county agent must have died, but he has not and will be around in due time. He has held nineteen meetings during September and has struck bed very few times before 1:00 a. m. Correspondence and reports of various kinds also have been heavy and 1152 square miles is some territory to get over.

Rosen rye has struck a warm spot in the farmers' hearts in these counties and a very large acreage has been seeded. A hard winter got wheat pretty bad but Rosen rye came thru in fine shape, consequently, in these parts anyway, has left its colleague far behind in popular favor. However some wheat is being sown and if this is a decent winter for grain we will watch its career with much interest because the County Agents still believe Red Rock to be Michigans hardest, hardest and best flouring wheat.

This is a fine time for the Community Committees in connection with the Farm Bureau work to begin to lay plans to see that something is done for earlier threshing next year. It is simply ridiculous, threshing should be done in late September and the next year's grain crop by enforced late seeding.

### WOMAN GREAT HELP IN LIBERTY LOAN WORK

Has Become Integral Part in Sharing Obligation of Financing the War.

By MISS GRACE DIXON, Federal Reserve Director for Women in Seventh District.

One of the great truths we have learned in this war is the need of men and women working together understandingly and sympathetically—animated by the same spirit of helpfulness, of fearlessness, of enthusiasm, facing definitely one goal with equal honor, equal power. For men and women working together with unanimity of purpose make the ideal service for the nation. Taking Lincoln's great words "We all need to work together to the end" that loyalty of the people by the people shall not perish from the earth.

To write of the activities of the women's work in the Seventh district is a pleasure, as we have become such an integral part in sharing the obligation of financing the war. That the work of the women and men might be more effectively co-ordinated in the district, the director for women has been made a member of the campaign committee as well as of the executive committee of the federal reserve banking committee. The state chairmen, county chairmen and city chairmen have been made members of the executive committees of the men's organization in their respective states, counties and cities.

The definite activities for women shall be:

1. All women's organizations that are listed strictly under women, such as clubs, fraternal societies, lodges, leagues, guilds, etc.
2. All elementary and high schools, private and parochial schools.
3. All booths, such as street, hotel, restaurant and cafeteria, department store and theater booths.
4. Women shall co-operate with the men's committee in churches, universities, ward organizations and any other committees where they can be of service.

It was also recommended that no separate reports of the amount of subscriptions taken be given by women, but that on account of the volunteer subscription and allotment plans, credit be given equally to both men and women it is advisable for women county chairmen to have a distinct and complete understanding with the county chairmen of the men's organization of this fact, so that no misunderstanding will arise on this subject during the campaign.

Where regular campaigns for soldiering subscriptions are made by both men and women, a separate record must, of course, be kept and reported.

Dr. Anna Shaw's admonition to the women of America "That every woman should be the child to the United States government by a little bond" is the slogan that is the inspiration of our workers. Through our various churches, schools, clubs, we hope to reach every home in this country—for we realize that if we can touch and kindle the patriotic ardor of women and bring women of diversified experiences and standards of living to a realization of their responsibilities, that upon the people who remain at home rests the obligation of financing this war, then indeed, are we fulfilling our mission as we should.

## Catarrhal Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed it has a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free.

## Michigan's Place in History.

It is said that Washington supplied his Continentals partly with lead from the early French mines in southwest Missouri. If this fact could be established then Missourians could proudly boast that their state had taken part in all the wars which have engaged our country from the very beginning.

## Making Her Useful.

When Earl went to his aunt's home for dinner and they were seated at the table, Earl begged to sit next to his aunt, who had a headache. He kept nudging her all the time, and finally she said: "Don't do that, auntie has a headache, and everything is going round and round." The youngster said: "Well, auntie, when that dish of hotness comes around to you, please hand it to me."

## Sincere Gratitude.

Mrs. William Bell, Logansport, Ind., writes: "I desire to say that I express my gratitude for the good Chamberlain's Cough and Diarrhoea Remedy did me, when I had a severe attack of diarrhoea three years ago. It was the only medicine that relieved me."

## A Bilious Attack.

When you have a bilious attack your liver fails to perform its function. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take three of Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter.
